

COMBINATION IS PLAN TO HANDLE GRAIN PROBLEMS

Farm Bureau Sug- gests Taking Over Five Big Concerns

CHICAGO, June 20. (AP)—A detailed plan under which five large grain concerns and 5,000 co-operative elevators would come under producer control was formally submitted today to the executive committee of the American Farm Bureau Federation.

Under the plan submitted, co-operative grain marketing organizations eventually would be accorded the trading privileges of the Chicago Board of Trade.

The corporation resultant from the consolidation under the proposed plan would become grower-owned, financed and controlled. The plan as submitted to the farm bureau federation contemplates acquiring mechanical and managerial facilities of the following firms:

Armour Grain company, Rosenbaum Grain corporation, Bartlett Frasier & Co., Rosenbaum Brothers Grain corporation, and the J. C. Schaeffer & Co.

"The proposal contemplates using the facilities of existing exchanges and operating in accordance with their established rules," says the announcement of the farm bureau.

The statement does not reveal by whom the plan was submitted. "It is understood that the tentative plan has been presented to other farm organizations," the farm bureau announcement said.

A selected committee headed by President O. E. Bradute of the American Farm Bureau Federation has been appointed to examine the plan and shape the legal details of the merger. The personnel of the committee probably will be announced within the next few weeks and the report of the examiners will be ready for the entire farm bureau membership before fall, according to the present plans of Mr. Bradute.

Financing
The financing of the consolidation is expected to be cared for with the funds which ordinarily make the "rebate" to the producer under co-operative marketing systems.

While the legal and financial details of the plan were not made public by the federation it was suggested that the rebates might be diverted into a sinking fund for the amortization of the consolidation debentures, stocks and bonds. Details of financing reaching many millions of dollars will make the chief demands on the efforts of the committee, in the view of those who have followed the trend of recent negotiations in the grain trade.

Gray Silver, Washington representative of the farm bureau federation spent several hours here today closeted with important figures in the Chicago grain trade and left shortly after noon for Washington.

Planned Long Time
The announcements of the American Farm Bureau Federation that a plan for producer control of certain factors of the grain marketing machinery had been submitted to leaders in the grain trade in Chicago persistent rumors of negotiations in this direction about a year ago.

At that time, it was recalled, Bernard M. Baruch, Wall Street operator and formerly chairman of the war industries board under President Wilson, made public correspondence in which he had made suggestions that farmers purchase a "going concern" like the Armour Grain company, as a solution to their problems of co-operative marketing.

The correspondence consisted of letters and telegrams to J. M. Nohl, secretary of the United Grain Growers, Inc., and a prominent agricultural senator whose exact identity never has been formally revealed.

The United States Grain Growers, Inc., is the subsidiary mar-

TWO LIVES LOST IN ATTEMPTED SCALING OF MOUNT EVEREST

Expedition Committee De- cide To Abandon Plan For This Year

LONDON, June 20. (AP)—Sir Francis Younghusband, president of the Royal Geographical society tonight informed the newspapers that a telegram had been received by the Mount Everest expedition committee in London to the effect that the attempt to scale Mount Everest had ended in disaster, involving the death of two members, George Leigh Mallory and A. C. Irvine.

Interviewed at Westminster Sir Francis said it was not known how the disaster occurred but that it probably happened a fortnight ago.

The expedition, according to Sir Francis, was within a short distance of the summit at a great or height than ever had been reached before. It had experienced great difficulties, its way thru tremendous blizzards which lasted for some weeks.

The members of the expedition Sir Francis said, must have been greatly exhausted when Mallory and Irvine died. It was the final assault on the peak, and the men had had great hopes of reaching the top. Sir Francis said it was certain the expedition would be abandoned for this year.

News of the disaster reached Birkenhead tonight. According to the Daily Express, the climbers were caught by a monsoon near the summit after a wonderful climb under the worst weather conditions they had experienced.

The present is the third expedition which has failed to reach the summit of Mount Everest, the highest peak in the world 29,002 feet above the sea level. Everest is in the Himalayas, on the borders of Nepal and Tibet.

GOVERNMENT DECIDES TO GO TO BOTTOM OF PRICES OF GASOLINE

Attorney General Stone Is- sues Orders For Gather- ing Data

WASHINGTON, June 20.—The government's intention to go to the bottom of the whole gasoline price situation, probably thru the courts, was indicated today by Attorney General Stone. Inquiries instituted by the federal trade commission and the department of justice are to form the basis of the proceedings which it was stated will be started by the federal government. Results of the commission's study of the price question, made at the request of President Coolidge are in the hands of the department of justice and Mr. Stone announced today he had directed members of his staff to collect data gathered by department investigators with that obtained by the trade commission. As the next step Mr. Stone will hold a conference early in July with attorneys general of certain states whose identity is withheld for the present. After that conference which Mr. Stone said would provide a comprehensive survey of the whole situation the department of justice will make known the character of proceedings it intends to employ.

BANKER OF LASALLE HEADS ORGANIZATION

DECATUR, Ill. June 20.—Wayne Hummel of LaSalle, Ill. was elected president of the Illinois Bankers' association in the closing session of the annual convention here today. The association was silent regarding its attitude toward the proposed \$100,000,000 hard road bond issue, but definitely went on record as opposed to the establishment of branch banks in the state. The selection of the meeting place for the 1925 convention rests with the executive committee of the association. St. Louis had asked to be awarded the convention but as yet no action has been taken.

A severe wind and rain storm cut in on the entertainment program for this afternoon. The golf tournament was broken up by the rain. By tonight most of the visitors had gone to their homes.

OPENS HEADQUARTERS FOR AIR MAIL SERVICE

Chicago, June 20.—Executive headquarters for the day and night air-mail continental air mail service, which starts July 1st, were opened here today by Paul Henderson, second assistant postmaster general. Henderson will receive reports daily by radio from each of the 15 air mail fields of the movement of the airplanes, weather conditions and figures on the traffic carrier.

HOUSE OF DAVID LOSE LIVES

Berrien Springs, Mich., June 20.—Drawn down by an undercurrent when they stepped into a hole while swimming in the St. Joseph river here tonight, three Jewish members of the House of David colony were drowned. A fourth was rescued.

FATHER AND TWO CHILDREN LOSE LIVES IN STORM

Auto Is Hit By Tree While on Return From Fishing

BLOOMINGTON, June 20.—Ernest Ayresman, 28 years old and his two children, Maxine, 4 and Vincent, 7, of Gibson City, east of here were killed this afternoon near their home when a large tree fell on the automobile in which they were riding during a terrific windstorm. Mrs. Ayresman seated in the same seat with her husband and children was knocked unconscious but fell away from the car. The little family was returning from a fishing trip on the Sangamon river when the storm came up. They were passing thru a wooded stretch and with the high wind, large trees began to fall around them.

E. M. Yazzell of Gibson City, who was following in another car narrowly escaped the falling trees.

Nearly all available men of the community turned out to free the victims, but it was 45 minutes before the bodies could be taken from the automobile.

Vincent lived several minutes after being taken to the home of Herbert Green, nearby. There were no scratches on him but he had been badly crushed under his father's body.

Ayresman was a salesman for P. Becker & Co., Chicago.

ENLARGEMENT PLANNED FOR NATIONAL GUARD

CHICAGO, June 20.—Major General Vinton J. Foreman, commanding officer of the 33rd Division, Illinois National Guard, today urged 350 officers attending the third annual meeting of the guard to increase the guard to 11,000 by the addition of 1,500 men before fall.

The Illinois National Guards, previous ranking as the fourth in strength among the states has risen near the top in the last year and by autumn should rank as third in the country he said.

General Carlos Black, in his address called attention to bills passed by the recent congress which will immediately become effective and benefit the Illinois National Guard.

Colonel A. L. Culbertson, commanding the 130th Infantry was elected president for the coming year. Col. T. S. Hammond, 124th Field Artillery, Colonel Francis M. Allen, commanding the 131st Infantry and Captain A. E. Evers, commanding N. S. N., were elected vice-presidents.

MEANS SAYS MELLON HELD UP PROSECUTION

NEW YORK, June 20.—Gaston B. Means, former agent of the department of justice taking the witness stand in his own behalf at his trial with Elmer W. Jarnecke, his secretary on charges of conspiracy to violate the prohibition act testified today that Secretary of the Treasury Mellon attempted to prevent the prosecution of prohibition agent Hawker, one of three agents implicated in the withdrawal of \$1,000,000 worth of whisky from the Guggenheim distillery in Pittsburgh in 1922.

Secretary Mellon and his secretary Arthur Sixsmith were subpoenaed to appear at the trial in federal court next Tuesday.

MABEL THROUGH WITH FORMER CHAUFFEUR

LOS ANGELES, Cal. June 20.—Mabel Normand, motionpicture actress does not intend to employ Horace A. Greer, her former chauffeur, again.

Greer, acquitted yesterday on a charge of attempting to murder Courtland S. Dines, Denver oil man last New York's night for killed her when he refused to take the witness stand during his trial the film star said. His refusal had been interpreted as an act of chivalry to his former employer. Arraigned in police court here today on a charge of violating the state prohibition enforcement act Greer pleaded not guilty, asked for a jury trial, and was released under \$250 bond which he produced.

"Cranks" Blamed For Threatening Letters

CHICAGO, June 20.—"Cranks" were blamed by the police tonight for new threatening letters received in connection with the kidnapping and slaying of Robert Franks to which Nathan Leopold, Jr., and Richard Loeb, millionaires sons have confessed.

Chief Justice John R. Caverly of the criminal court who will preside at the trial of Leopold and Loeb for murder and kidnapping for ransom today revealed that he had received a letter a few days ago threatening the life of Josephine Franks, 17 year old sister of the slain boy.

Meanwhile Irvin Hartman, Jr., 10 year old son of a wealthy furniture dealer and playmate of the Franks boy, had been spirited out of the city after his father had received a note modeled after the ransom letter written by Leopold and Loeb and demanding \$10,000 ransom under penalty of death.

The police said that close watch was being kept on both the Hartman and Franks homes but declared that both notes were probably by someone who had spent the last three weeks reading the extensive newspaper accounts of the Franks case. The state attorney's office building up evidence to combat the insanity defense of the confessed slayers today enlisted the aid of attorneys for the Franks family in getting in touch with more than a dozen friends and acquaintances of the accused youths whom they will question, presumably regarding the mental condition of the boys.

BALTIMORE, June 20.—Relatives here of Irvin Hartmann, 10 year old Chicago boy who was reported to have been brought to Baltimore this morning following threats of death unless his father paid \$10,000 tonight refused to state whether the lad came here or was spirited to another place for protection.

REVEREND P. S. GRANT RESIGNS AS RECTOR OF NEW YORK CHURCH

Tenders Resignation To Episcopal Church After 31 Years

NEW YORK, June 20.—The Rev. Percy Stickney Grant, Episcopal rector who has had several differences with Bishop William T. Manning on religious subjects today resigned as rector of the Church of the Ascension, on lower Fifth avenue. The resignation, presented at a vestry meeting was "accepted with regret."

Less than a month ago it was announced that the engagement between Dr. Grant and Mrs. Rita de Acosta Lydig had been broken. The marriage was forbidden by Bishop Manning on the ground that it would violate a church canon prohibiting the re-marriage of a divorced person unless she had obtained her divorce on the grounds of adultery.

Although Dr. Grant was present at the meeting, his resignation was tendered in a letter to the wardens and vestrymen of the church. He wrote that he always had planned to resign at the end of 30 years' service as rector, but had stayed one year longer because of the controversy going on last year. He explained that his health was not good and that he needed a country life. Also, he had certain literary work to do which already was two years behind schedule.

SMITH CANNOT SEE DARK HORSE SIGNS

New York, June 20.—After a day spent in greeting delegates from 17 states, Governor Alfred E. Smith tonight was so certain of the Democratic presidential nomination that he refused to discuss dark horses or second choice candidates.

"There are no such things," he declared. "I believe I'll be nominated. I am convinced that when the convention gets thru paying its compliments to favorite sons, it will get down to figuring who could most assuredly win the race to the white house."

Governor Smith announced today that Franklin D. Roosevelt, his national campaign manager had been tentatively chosen to place him in nomination.

"Supposing you and Mr. McAdoo should deadlock the convention?" asked a reporter of Governor Smith. "Who looks to you like the most promising dark horse?"

"If there's a dark horse in this convention, he's so dark I can't see him," was the reply.

OLSON, FARMER-LABOR CANDIDATE, NOMINATED

ST. PAUL, June 20.—With the official Hennepin county returns from Monday's primary election disclosing a net gain of 62 votes for Floyd B. Olson of Minneapolis, nomination as the Farmer-Labor gubernatorial candidate is assured, these and semi-official figures tonight showed.

The figures which included Hennepin official count, the state canvassing board's in 47 and the county canvassing board's in the others gave Olson 55,798 as compared with 55,611 polled by his nearest opponent, Tom Davis of Minneapolis.

COUPLE WHO TOURED GLOBE IN SPEEJACKS NOW AFTER DIVORCE

CLEVELAND, O., June 20.—Mrs. Gene Gowen today filed a suit for divorce from her husband, Albert Y. Gowen who two years ago circled the globe with his wife on the yacht Speejacks.

Mrs. Gowen also asked for alimony, equitable relief and makes a formal charge of neglect on his part. The Gowens were married at New York City in July, 1919.

CHICAGO, June 20.—The divorce suit filed in Cleveland, Mrs. Gowen against Albert Y. Gowen, threatens the end of a marriage that started with a honeymoon which for a time held the interest of the whole world.

The Gowens were married in New York in 1919 and in 1921 decided to take a belated honeymoon in the Speejacks, saved to be the smallest craft that ever circled the globe. The boat was only 90 feet long started on its journey around the world on August 19, 1921.

DEMOCRATS PLANNING IMMENSE BANQUET

NEW YORK, June 20.—More than 3,500 delegates, alternates and political leaders for the Democratic national convention will be the guests of the city of New York, at what city officials claim will be the greatest civic dinner ever given. Taking place Monday night at the Hotel Commodore, the affair will be the last social event before the opening of the battle for the presidential nomination at Madison Square Garden.

Mayor John F. Hylan will welcome the visitors. Cordell Hull, chairman of the national committee; Norman E. Mack, Miss Elizabeth Marbury and Miss Emily Newell Blair will also speak.

The delegates will find their tables arranged in miniature after the seating arrangements at the convention.

ATHLETES DEVELOP MINOR CASUALTIES

ON BOARD S. S. AMERICA, June 20.—(By Wireless to The Associated Press)—An epidemic of minor casualties has put 22 of the American Olympic athletes on the ship's hospital list. Dr. Graeme Hammond, head of the Olympic medical unit, is busy treating lame arms, boils, strained tendons and seasickness, but none of the athletes are seriously and it is expected that all will be well when the America reaches port.

Charley Paddock, injured a toe nail, developing a slight infection. It is now interfering with his workouts.

Loren Murchison, who has been suffering from an attack of tonsillitis, is continuing to show improvement. It is now expected he will start in both the 100 meters and 200 meters sprints.

AIR MAIL SERVICE PLAN FOR CONVENTION

Chicago, June 20.—The post-office department has arranged a special air mail service from New York to Chicago on June 24 the opening day of the Democratic convention according to an announcement made here tonight by Colonel Paul Henderson, second assistant postmaster general.

The service is similar with that established out of Cleveland during the Republican convention.

FLIGHT POSTPONED TILL MONDAY MORNING

Mitchell Field, New York, June 20.—After observations late tonight, Lieutenant Russell L. Maughan announced that weather conditions probably would cause postponement of his dawn to dusk transcontinental flight, until Monday morning.

TEN ARE UNDER INDICTMENT FOR TRAIN ROBBERY

Nine Counts Found Against Defendants by Jury

CHICAGO, June 20.—Ten persons were named by the federal grand jury late today in an indictment charging them with participation in the holdup near Chicago on June 12 of a Chicago, Milwaukee & St. Paul mail train by bandits who secured more than \$200,000 in cash and securities.

All were indicted on nine counts, based on robbing with a gun, robbing the mails and conspiracy to rob the mails. Those named are James Murray, Chicago politician; Walter McComb in whose fall several of the suspects were arrested; Carlo and Ernest Fontana, Chicago gangsters; Max Greenberg, St. Louis, a member of Egan's Rats, a St. Louis gang; Willis, Joe and William Newton, brothers and Sam Grant and Blackie Wilcox, both escaped from a Texas prison. All are in custody except Greenberg, Grant and Wilcox.

The jury which heard the evidence on one of the most daring holdups ever perpetrated returned the indictments after only three hours.

Later the prisoners were arraigned and the Newton brothers and Carlo Fontana were held under \$100,000 bonds each. McComb was held under \$50,000 bonds.

Murray, who had been at liberty after scheduling more than \$200,000 in real estate was rearrested during the day on a warrant charging him with having taken part in the \$1,500,000 mail theft at the Union Station here three years ago.

John E. Byrne, assistant United States district attorney, said after the arraignment that the government would insist on an early trial and that he expected all those indicted will be in custody and the trial started within two months. Those found guilty of robbery with a gun will go to prison for not less than 25 years he added.

Mrs. Katherine McComb, wife of Walter McComb who is charged with conspiracy in connection with the robbery was held tonight under \$5,000 bonds. The Newton brothers, it was learned today, have been sought in Texas in connection with bank robberies there and when notified today that Texas officials were on their way here to try to identify them, expressed little surprise but refused to comment on the case.

Rush D. Simpkins, chief post-office inspector, said today that from Washington today to investigate the robbery, said that U. S. Marines may again be assigned to ride the mail trains out of Chicago as was done three years ago after several mail robberies.

Greenberg believed by the police to be the brains of the robbery and to be in possession of most of the \$200,000 loot, was being sought in Williamson county after reports that he had headed for that section after leaving St. Louis, were received here.

James Morley and his wife, who were arrested today after a report that a telegram addressed to Grant had been received in their care, were released tonight, the authorities stating they knew nothing of the case.

FARMER LABORITES COMPLETE COMMITTEE

ST. PAUL, June 20.—Organization of the new Farmer-Labor party's national committee was completed here today with selection of members of the executive committee and the issuance to them of instructions to attend the conference for progressive action at Cleveland to present support for Senator LaFollette.

The committee however is under orders not to endorse Senator LaFollette unless he subscribes to the platform adopted at the convention here Thursday.

Alexander Howatt of Kansas was named chairman of the executive committee and the other members chosen are Alice Lorraine Dailey of South Dakota, Joseph Manly, Illinois, Alfred K. Knutson, Fargo, N. D., Scott Williams, Ohio and William Mahoney, St. Paul.

PRESIDENT ORDERS PROBE OF NAVY

Washington, June 20.—An inquiry will be ordered by President Coolidge into charges by Representative Britten, Republican, Illinois, that the navy is dominated by a Washington "ring." The president was said today, however, to be confident that nothing would be found to substantiate the assertion that a small clique of high officers were controlling the department.

The president was said further to be confident that the present system of selecting naval officers for promotion is an excellent one and that the present selection board personnel is made up of unusually efficient officers.

DEATH AND LOSSES FOLLOW IN WAKE OF EXTREME HOT WAVE

Heavy Storms In Central States Also Cause Heavy Damages

CHICAGO, June 20.—Storms and heat in the Mississippi and Ohio river valleys during a period of 24 hours ending tonight took a toll of more than a score of lives and caused injuries or prostrations to more than a score of others and property loss estimated at more than \$2,000,000.

Chicago suffered comparatively little from sudden thunder showers which put an end to a heat wave that threatened to equal yesterday's record of 94. The thermometer had climbed to 85 at 3 o'clock when the thunderstorm put an end to the hot weather temporarily. One bathing beach, three youths were swept into Lake Michigan on a raft by the high wind but later rescued and one boy was seriously injured when hit by lightning.

Northern Illinois and South-eastern Wisconsin suffered most from the wind, hail and rain. A storm in Ohio and Minnesota counties, Illinois caused damage of upwards of \$1,000,000 and farm property in the vicinity of Racine, Wis., was damaged to half that amount while from Northern Indiana came reports of heavy losses due to heavy rains and winds.

Ohio and Michigan later in the day still suffered from the heat however and fourteen deaths were reported in the Buckeye state alone.

Joseph J. Sisek, 19, Stickney, Ill., was killed by lightning during today's storm while he was attempting to lower a window in his home.

DETROIT, Mich., June 20.—An unidentified man was found dead on the street here today, the first victim of heat prostration of the season. Eight other persons were overcome by the heat authorities reported but none is believed to be in a serious condition.

The temperature established a record when the thermometer climbed to 92, one degree hotter than the hottest previous June 20 on record at the local weather bureau.

KNOXVILLE, Tenn., June 20.—Equalling a record of 37 years standing, Knoxville experienced 96 degrees of heat today, at 3:05 and again at 5 o'clock. Statistics revealed the fact that only one other June 20 in 54 years shows a temperature of this degree of warmth, this occurring in 1884.

RADIO PHOTOGRAPHS PROVEN POSSIBILITY BY TESTS IN PARIS

The Matin Predicts That Long-Distance Seeing Is Very Near

PARIS, June 20.—The first photograph ever transmitted by radio was printed today in the Matin. The picture of General Gustav A. Ferrie, director of the Eiffel Tower wireless station, was an excellent one, but it bore several vertical smudges, which, however, were easily eliminated by retouching.

The picture was sent by the process of Edouard Belin, the inventor of the method for transmitting pictures and photographs by wire. Although the details of the wireless method has not yet been disclosed, it is known that it is on the same principle as is used on the wires.

Mr. Belin is filled with confidence that he can send wireless pictures across the Atlantic and an attempt at such transmission between Paris and New York is expected to be made in a few weeks. The Matin in announcing his success today, predicts that "television," or long distance seeing will soon be accomplished.

CLAIMS SEED PRICES WILL BE REDUCED

Chicago, June 20.—A twenty-five per cent decrease in the price of seeds within the next five years was predicted today by the American Seed association meeting here this week. The decrease according to the officers of the organization is made possible by the constant improvement in the quality and the output of the product.

L. W. Wheeler of Gilroy, California, was elected president of the association. Other officers elected included F. B. Funk, of Bloomington, Illinois, first vice-president.

WOMAN IS KILLED IN CHICAGO FIRE

Chicago, June 20.—One woman was killed and her three small children were overcome and later rescued when fire broke out to night in a South Side flat building. Mrs. Fedora Martin, 25, a negro, was killed when she fell or jumped from a third story window of the burning building after the stairs had been burned away. Firemen rescued her three children who were rendered unconscious by smoke.

KLAN PLANK MAY CAUSE TROUBLES AT CONVENTION

George E. Brennan In- sists They be Openly Denounced

NEW YORK, June 20.—With their lesser disagreements almost forgotten, the chieftains of the Democratic party are preparing for two momentous political battles in the opening phase of the national convention which begins Tuesday in Madison Square Garden. One of them will result from the stiffening rivalry between William G. McAdoo and Alfred E. Smith for the nomination for the presidency. The other is fast developing around the proposal to condemn openly the Ku Klux Klan, in the party platform.

To these may be added a third struggle that will make political history—a sharp and bitter skirmish over retention of the long standing rule requiring a two-thirds vote of the delegates to nominate.

Should McAdoo and Smith both be forced out of the running after a prolonged deadlock, there will come another spirited fight over selection of a compromise candidate but for the moment only the partisans of the favorite sons and dark-horses are looking far into the future.

Talk of an anti-klan plank was even more tangible so far as actual voting strength was concerned, but as more and more of the party leaders arrived on the scene it became increasingly apparent that a deep-seated disagreement was in the making.

The group of platform makers at work on a tentative draft of the party declarations have tried out many alternative planks on the subject without finding one that is satisfactory to everybody. The only apparent result has been agreement among a wide circle of the leaders that some sort of a denunciation of klan policies, either direct or veiled, should be included in the platform.

Brennan Favors Plank
George E. Brennan of Illinois, recognized as one of the most powerful of the group of men who will influence the decision of the convention declared in a statement today that the klan "must be specifically named and condemned in the platform." He rejected as unsatisfactory a proposal that the plank merely condemn interference with religious liberty, asserting that race discrimination also be denounced and that "neither the negro nor the foreign born or any other race should be proscribed in free America."

Some of those high in the party councils were predicting tonight that the fight would be settled finally on the floor of the convention itself after a debate as fiery and as full of political dynamite as that over the free silver issue in the Chicago convention of 1896.

Although some minor disagreements remain the representative group working on the tentative platform draft has found a way to agreement on virtually all questions except the klan. The platform as it now stands subject to revisions as to phrasing before its adoption by the convention gives major prominence to the oil scandal and corruption in public office and reaffirms in general terms only the foreign policy of the party insofar as it has tended to promote international peace and co-operation.

Some of the platform makers are insisting that a flat declaration for membership in the league of nations should be included. This group is led by Senator Glass of Virginia who presented as a model the plank adopted by the Virginia democracy, declaring the United States should "discard the farce of unofficial representation and become a member of the league of nations upon terms entirely consistent with our sovereignty."

A plan to have Senator Pat Harrison's keynote speech at the opening session Tuesday delayed until evening so that a larger radio audience might hear it failed of approval today by the sub-committee on convention arrangement. Some party officials still are in favor of the plan, however, and the final decision will rest with the Democratic national committee when it meets tomorrow to give approval to the convention arrangements.

PITTSBURGH SUFFERS FROM RECENT HEAT WAVE

Pittsburgh, June 20.—Four deaths due to heat prostrations and one death indirectly due to the torrid weather were reported here today. Two men and two infants succumbed to the heat, the thermometer registering 91 degrees in the middle of the afternoon. Another man who sought relief from the heat by bathing in the Ohio river lost his life by drowning.

A THOUGHT

To do justice and judgment is more acceptable to the Lord than sacrifice.—Prov. 21:13.

Justice satisfies everybody and justice alone.—Emerson.

Prof. Fisher says the buying power of the dollar is somewhere around 60 cents, compared with its pre-war purchasing power. That's true.

And yet an American silver dollar worth \$12.00 was found recently in Lancaster, O. It was one of the famous issues of the year of 1894. Only seven others are known to be in existence. Its value is in its scarcity. That's about all there is to any value.

A Chicago woman, 50 years old, notorious pickpocket, arrested on the 22nd inst. She had been in 12 penitentiaries and 62 jails, and has paid fines totaling more than \$25,000, police say.

There was a time when she was an innocent little girl with no thought of breaking the law.

Crime is 90 per cent environment and association, not more than 10 per cent natural inclination.

COMMERCIAL CRIME

There seems to be a commercial crime wave, too. That is, crimes committed primarily against merchants and bankers, by wrongful use of business methods.

The district attorney of New York says that the nation is defrauded of perhaps \$1,750,000,000 a year by persons obtaining property or money by false financial statements, false proofs of loss to insurance companies and false statements in connection with the sale of spurious securities.

This immense loss, though most of it may be incurred directly by business men, is nevertheless passed around to everybody. It results in lower dividends, higher rates for insurance, higher prices for services and commodities. It comes out of the pockets of the entire public. The entire public, therefore, has an interest in stopping such crime just as much as it has in stopping bank robberies and house burglaries.

The rate of convictions for such offenses, however, is very low, because they are usually involved in business technicalities and a mass of figures, so that juries become confused. It is harder to make a normal citizen feel the criminality of a purely financial transaction than a crime of violence, although the effect may be equally bad.

There is need, therefore, of more careful and systematic prosecution of such cases. The National Association of Credit Men is performing a valuable service in laying plans and seeking a fund for the systematic prosecution of commercial crimes.

BETTER LOCOMOTIVES

The New York Central railroad has been trying out a new type of locomotive which burns oil instead of coal and has an electric drive, like some of the newer warships. There is a 300 horsepower oil engine which operates a 200 kilowatt generator, which in turn supplies power to four 50-horsepower motors, geared separately to four axles.

It is found that this engine can be operated at about one-third the cost of a steam locomotive, because there is so little of the fuel and power wasted, and that it is entirely smokeless.

Such a combination of cleanliness and power should be a boon to the railroads to shippers and to the entire public. A time may yet come when our railroads will cease to be things of ugliness, smoke and dirt, tolerated only for their efficiency.

TAXES HIT EVERYBODY

We would be a lot better off if all people could get firmly established in their minds the truth of the statement made by President Coolidge that "taxes hit everybody."

The man who pays taxes to the collector and gets a receipt made out in his name is not the only taxpayer. In one way or another he passes part of the tax on to some one else. If he noted that tax every time he passed it on, and gave the new payer a receipt, the fact would be universally recognized. But the indirect tax is covered and, therefore, usually unnoticed.

The National Association of Real Estate Boards recently figured that more than 12 per cent of the amount of money paid for rent goes to taxes. That is, the owner of a building pays the tax directly and then adds the tax to the rent he charges and collects. The tenant really does the paying. The owners acts as a private collector of the tax and hands it over to the public collector.

And this is true not only of local taxation but Federal taxation as well. It is true that local taxation is higher than Federal taxation in most places, but wherever Federal taxes are imposed, they are, in part at least, passed on as part of the cost of doing business.

There cannot be too much emphasis placed upon the Coolidge statement that "taxes hit everybody." The political demagogue who tries to make you think that he is in favor of "taxing the rich" is merely trying to fool you. He may secure the enactment of a law that compels the rich man to go to the tax collector and pay the money and get a receipt in his name, but the rich man is not paying all the tax, by any means. He may pay his proper share of it, but he passes the rest of it on to some one else, just as the landlord does.

The only way to lift a tax is to reduce it or repeal it. Shifting it, or attempting to shift it to some one else is merely a subterfuge that may deceive some people—but it does not make their burdens any lighter.

"Taxes hit everybody," and don't forget it.

ANNOUNCEMENT

In 1921 the Journal inaugurated a poetry column for local writers. The quality of the verse printed in this department is indicated by the fact that it has been printed in three successive volumes of the Anthology of Newspaper Verse, a national collection of the best newspaper poems of each year. At a later date the Journal began the occasional publication of book reviews.

It is now planned to combine these with additional features of literary value and interest in a Sunday literary page. This page will be edited locally under the direction of Wayne Gard and will include critical articles, book reviews, literary news, and verse. Its first appearance will be in the Journal tomorrow.

Contributors to early issues will include Prof. George R. Poage and Prof. Henry H. Caldwell of Illinois College, Anne Wakeley Jackson, librarian at the Illinois State School for the Deaf, John Kearns and George Steele Seymour a Chicago author internationally known as founder of the Order of Bookfellows.

Unsolicited contributions for this page will be carefully read, but cannot be returned unless a stamped and self-addressed envelope accompanies the manuscript. Since the purpose of the department is not to benefit book publishers but to interest and inform Journal readers, suggestions toward its improvement will always be welcome.

DR. RULE PURCHASES WEST STATE SITE

Will Remove His Present Residence to New Location at Once.

Following the announcement of the closing of the contract for property on West State street upon which Jacksonville's new hotel will be constructed comes news of the purchase of a lot on West State street, lying directly west of Mayor E. E. Crabtree's residence from Miller Weir by Dr. F. M. Rule, who will move the residence in which he now lives to this new location.

The contract for removing the eight room residence on Morgan street to its new site has been let to L. A. Barnhart and the contract for the carpenter work has been awarded to W. H. Stull. Removal of the building will begin at once and it is expected to be ready for occupancy by the first of September. Dr. Rule has already had several trees cut down on the West State street lot to make way for the house and when the removal is completed he will have one of the desirable residences of the city.

Interesting in the removal of the structure is the fact that it has once before been moved. This change in site was performed several years ago, the dwelling being brought to its present location from the site of the David Prince school prior to the building of the school.

DESERTER GIVES UP MARSHAL GETS REWARD

John M. Todd, city marshal of Roodhouse, was recently surprised and pleased when Louis Buchanan, a deserter from the U. S. army post at Fort Dodge, Iowa, walked up to him and surrendered. Buchanan, who had been dodging police and other officers of the law for some weeks, told the marshal that there was a reward of \$50 offered for his capture, and that Todd might as well have it as any one else.

The Roodhouse officers were not long in establishing communication with army headquarters, and he and his prisoner were soon on their way to Jefferson Barracks, the soldier to be relieved of police dodging for some time to come, and the marshal to claim the reward of \$50 that had so unexpectedly fallen into his hands.

HALF WILL FAIL TO VOTE

BY ALBERT APPLE

Nearly half of the citizens who were entitled to vote in the 1920 presidential election didn't vote at all. For every 100 who voted 96 stayed away from the polls. This was figured out recently by Simon Michels, Washington lawyer, who served several years as secretary for the late Senator Knute Nelson of Minnesota.

This same thing will probably happen this year.

Michels claims that the "Stay-at-home vote" could elect or defeat any candidate for president. He's right. That's obvious.

Michels' analysis showed that over 25 million citizens, eligible to vote in 1920, failed to go to the polls. The people who did vote totaled 26,713,832 totaling votes cast for all candidates.

And the vote slackers yell the loudest when anything goes wrong in Washington.

Nearly 30 million Germans voted in their national election in May. That's more than vote for president in the United States.

And yet we have nearly twice as many population as Germany. They take their government seriously over there. They go to the polls and get what they want—instead of staying away and grumbling when government fails to please.

The ballot is the foundation of democratic government. Here in America, citizens by their ballots have virtually unlimited power to make any change they want and bring about any reform or condition they desire—simply by using their ballots intelligently.

Now, if Americans were paid \$5 a piece for voting, how many would stay away from the polls? And yet failure to vote may

cost a citizen a good many times \$5—in the form of inefficient government, high taxes and waste of public funds.

If you stay away from the polls this fall, you signify indifference as to what kind of government you live under and what is done with this America of which you are a part owner.

FORD
Henry Ford sails serenely even during a business slump. In May when the steel industry was sagging to 50 per cent capacity and the auto industry in general was inspecting his life preservers Ford sold 209,601 passenger cars and trucks. That's about two and a half million a year.

Many wonder at Ford's success. And yet it's all based on a very simple principle—selecting a useful device that everybody needs and wants, and then manufacturing it at a popular price. Ford isn't the only one who has cleaned up millions this way.

TIME
The world's finest clock was in the tower of San Eustorgio in Milan, Italy. It was placed there in the year 1309. That's a long time to us who live only a few years, but a short time in the long history of humanity.

The invention of the clock was the birth of industrial slavery.

COTTON
World leadership in cotton is slipping away from our country. The boll weevil's chiefly to blame. This year Americans will grow 38,500,000 acres of cotton. Foreign countries have about 28,000,000 acres planted to cotton, an increase of 2,000,000 acres in one year. It is the most important economic shifting now taking place in the world.

WHITE HALL BOY IS SEVERELY INJURED

White Hall, June 20.—Maurice Joutet is at his home on Jacksonville street with severe cuts and bruises received by jumping from an automobile on the hard road out of Carrollton soon after eight o'clock Thursday night. The left eye is in a serious condition, and the saving of the sight is a question. Mr. Joutet was in a car with Lynn Firth, son of Wesley Firth, and his brother, Stanley Joutet. A rag became ignited in the car, and fearing an explosion Maurice jumped onto the pavement, resulting in the injuries about his face, body and limbs.

The other two boys remained in the car and escaped injury, the car being run into the ditch half a mile distant and left there. The injured young man was taken back to Carrollton for first aid treatment by his uncle, Dr. R. J. Joutet, and was then brought to his home in White Hall. A party of joy riders had passed the car driven by young Firth, and was apparently stopping, when Firth applied his brakes. The Joutet boys are sons of Henry Joutet, Maurice has been married a short time.

WHITE HALL SEEKS NEW CLASSIFICATION

Greene County Town Now Has Eighth Classification Under Inspection Bureau Rules—Various Improvements in Fire Fighting Planned

White Hall, June 20.—Following engineering estimates that had been in progress for a few days, an assembly of citizens heard a report Thursday afternoon from Charles W. Parsons, engineer of the Illinois Inspection Bureau. Mr. Parsons went over his method of computation, which showed that the classification of White Hall is now eighth, a poorer classification than has prevailed since 1919, since which year it has enjoyed the seventh class distinction. To retain its class seven standing, Engineer Parsons recited the various credits that would apply, one of which already has the endorsement of Mayor Roodhouse, that of providing an additional chemical vessel on the fire truck.

This and one or two other items that involve no great burden will be sufficient to retain the present classification, one of which would be the adoption of standard fire ordinances. These matters will have due consideration upon presentation to the city council in a formal way. The services of Engineer Parsons were found to be quite valuable in suggestions for a more adequate water system, the insurance engineer pointing out many points in the way of fighting fire that ordinarily do not come under the plans of the average engineer in providing water supplies. These points were made of record for the use of the chamber of commerce secretary, Mr. Welch, in submitting water data to the city officials.

Mr. Parsons spoke of the fine co-operation accorded him by the city officials in making up his report, and gave his impressions of the various municipalities with which he has come in contact, saying that those places having the support of business organizations are the ones that are forging ahead, aiming his remark to apply to White Hall. The conference gave a larger vision of the work to be done in bringing about even better fire safeguards in a city that has not had a serious conflagration since 1915. Alderman Sullivan and Water Superintendent Fry were present on behalf of the city council. The session was held in the forum assembly room in the Ruckel building.

MINING COMPANY IS FORMED AT ASHLAND

Ashland, June 20.—About 50 of the 122 subscribers to stock in the Ashland prospective coal mine met at the Lyric theatre and formed a temporary organization. F. C. Wallbaum called the meeting to order and stated its object, after which he was named chairman and A. C. Huston secretary of the meeting.

A number of matters relating to the sinking of a shaft were presented and freely discussed, and then it was decided to form a temporary organization under the name of the Ashland Coal Co. The temporary officers elected, who will hold their respective offices until a permanent organization is effected, are as follows: President—F. C. Wallbaum. Secretary—J. J. Lohman. Treasurer—J. N. Blank.

Board of Directors—J. J. Wyatt, Fred Christen and H. O. Brownback.

An assessment of \$10 on each share was ordered, the money to be used for the purpose of boring several holes to determine the depth of the vein and the kind of roof covering it.

A committee composed of Will Christen, F. W. McLaughlin, Lou Gals, Ed. Hewitt, J. J. Newell and J. L. Snyder was named to collect the assessment.

After all the assessment are paid in, the board of directors will make a contract with some reliable driller to sink the prospecting holes, which contract will probably be let within the next two or three weeks. The board already has one bid, but they want more than one, and then they will select the best and most reliable bid.

Most of the \$10 assessments have already been paid in, the few remaining unpaid are those whom the committee have been unable to see.

Just think how nice it will be to wear a cool, classy summer suit that comes from KNOLES.

BROKEN LOCK CAUSE JAIL BREAK RUMORS

Rumors have been prevalent in the city for the last few days that "Red" Hare had effected his escape from the county jail, where he is being held pending his removal to the Chester penitentiary. Several stories have been afloat with reference as to how he had gained his freedom. Officers said that numerous calls have been made at the jail inquiring as to the truth of the rumor. However, yesterday afternoon Hare was still in jail.

The rumors were probably due in part to the fact that a padlock on the outside of a cell door had been broken. The cell contained several colored prisoners and all declared that they had not broken the lock. The second lock on the door had not been tampered with.

FORMER RESIDENT IS SUCCESSFUL ACTOR

Mr. and Mrs. G. B. Andre are the recipients of an autographed photograph of Bill Coley, former Jacksonville resident and now of New York City, where he is playing a leading part in Longacre theatre, in the musical comedy, "Moonlight" with the leading lady a well known theatrical star, Julia Sanderson. The show will close July 1st and Mr. Coley will begin work on a new production for next fall.

Mr. Coley, who has taken the stage name of Glen Dale, is well known in Jacksonville, having been born and reared in the city. Prior to his departure from the city in 1917 he was in the employ of Andre and Andre. Since that time he has been engaged in theatrical work and his climb up the ladder of success has been continuous. His success is partially due to a splendid voice, and only recently he sang for the inmates at Sing Sing prison.

Mr. Coley is staying at the Hotel Bristol in New York and should any of his Jacksonville acquaintances be in the city he sends word that he would be glad to have them call on him.

I. C. ALUMNUS BRINGS BOYS HERE TO CAMP

A company of five boys from the Rock Island Y. M. C. A. camped last night on the Illinois college campus. They are in charge of Henry Best, a graduate of the college, who is director of boys' work in the Rock Island association. Dr. Best and his boys are traveling in two large trucks and are making an extended tour of the points of interest in Illinois.

The company is equipped with complete camp and cooking outfit, and is quite independent of hotels and restaurants. The boys will be on the road for at least three weeks. The tour is an educational venture planned by Mr. Best, who has been working in the Rock Island Y. M. C. A. for some time. The campers will go from here to Springfield today, after inspecting the sights of the city.

Miss Gertrude Wilson of Decatur, an experienced operator in all lines, has joined the Davis Beauty Shop force.

CHILDREN'S DAY AT BROOKLYN CHURCH

The children of the Brooklyn M. E. Sunday School here to give their annual Children's Day program at 10 o'clock Sunday morning. At that time a cantata, "The Secret Whispered to the Children" will be presented. The synopsis of the cantata and the cast of characters appear below:

Every year, on a special day in June, the children are asked to bring offerings for older boys and girls that they may go to college. So this year, as an appreciation of what the children have done, the Children's Day Fairy asks the four seasons, Autumn, Winter, Spring and Summer, to help prepare a festival for all the children. She wants the flowers, butterflies and all nature to help in the celebration. The four seasons gladly go forth to make preparations and return, bringing with them the flowers, caterpillars, leaves, snowflakes, butterflies, raindrops and sunbeams who in their songs and happy play show the children what gifts the Heavenly Father has sent to them and what gifts the children can bring.

Characters of the cantata are: Children's Day Fairy—Wilma Henly.

Spring—Marjorie Bossarte. Summer—Monta Bond. Autumn—Helen Thomson. Winter—Elizabeth Jameson. Flowers—Pauline Godfrey. Hazel Thomson. Mary Jane Curtis, Ida May Mitchell, Gladys Ornelas, Margaret Sheely. Caterpillars—Bill Benstall, Rex Jackson, Roland Moore. Autumn Leaves—Eula Henly, relatives and friends.

Frankie Rivers, Lucille Baldwin, Lucille Rivers, Helen Stone, Mary Ruth Goodrick.

Snow Flakes—Clarence Belzer, Marjorie Fanning, Mary Kathryn Sheely, Marjorie Goodrick, Maxine Jackson. Butterfly—Jeanette Fetter.

TAUGHT IN BROWN COUNTY MANY YEARS AGO

W. H. Slater recently sent to Abner Clarke of Mt. Sterling a paper giving the notice of the death of Dr. E. F. Baker. The letter received from Mr. Clarke mentions that there are now living at least five pupils Dr. Baker taught at C.P.S. school in Brown county 60 or more years ago. Mr. Clarke mentions he is 75 years of age and is the youngest of the group.

Another letter was received from E. E. Clarke, also of Mt. Sterling, who was a lad when Dr. Baker was a teacher in Brown county but who remembers him well.

Russell Toddin is making an extended visit with his grandmother and other relatives at Hillview.

Miss Sybil Smith left early this morning for a visit with her brother Oris Smith in Chicago, and was accompanied by Miss Andriana Leidy who will also spend the week-end with Chicago relatives and friends.

The "Ad" that Saved a City

Rome was being attacked. The massive walls were breached. The enemies pressed hard on every side. To the north, the invaders crept stealthily through the night to storm the gates. In the dark they stumbled on a flock of geese. The fowls cackled loud and long—the sentries heard—and Rome was saved.

Advertising is continually saving something for someone. It will save for you, too, if you use it properly.

It will save you money by pointing out real bargains, by telling you of true values, by giving you prices to compare and by telling you how much you should pay.

It will save you time and effort by telling you exactly where and when to go for what you want to buy. You don't have to "shop around."

It will save you disappointment by telling you just what you can expect from your purchases. Every time a merchant or manufacturer advertises, he obligates himself to sell you goods that fulfil his claims. He knows it doesn't pay to advertise unworthy wares.

Read the advertisements as a plain, every-day business proposition. It is a duty you owe yourself and your purse.

ketting organization of the American Farm Bureau Federation, officers of the latter organization declared.

Under date of June 22, 1923, these dispatches reported under New York date:

"A plan whereby the United States Grain Growers, Inc., an organization of farmers engaged in co-operative marketing, can obtain control and ultimate possession of the Armour Grain company, with its entire organization and present administrative personnel has been suggested by Bernard M. Baruch and is being considered by J. Ogden Armour head of the company and its president, George E. Marcy."

Schaeffer Approves

John C. Schaeffer of the J. C. Schaeffer & Co., viewed the plan as significant as a revelation of the attitude of those in the grain trade toward the co-operative marketing effort of the producers. "The elevators and grain men on the board of trade have shown their disposition in the matter towards the farmers co-operative plan," he said. "If the farmers think this a good plan, they can come into possession of all these properties and thereby become owners of the great grain marketing corporation handling both the domestic sales and the export business."

"The elevator and grain men are thus showing the farmers that they are willing to let the farmers have the properties at an appraised valuation, and will manage the business for them for a

given period until they wish to take the whole management into their own hands."

Prominent figures in the grain trade predicted that at best the consolidation plans could not be consummated in less than three months after a final agreement on terms.

The five grain firms involved control virtually the entire elevator capacity of the Chicago market and a considerable capacity in other primary markets and export bases. All the elevators owned and leased by the first companies are included in the tentative plan, which is understood to include virtually all elevators in the Chicago market with the exception of several owned and operated by railroads.

A careful estimate by a local grain merchant of the value of the physical properties involved placed the figure at approximately \$15,000,000 for the elevator properties of the five concerns and about \$8,000,000 for the other real property such as office equipment, wire facilities, board memberships, etc. These figures, of course, do not include the five thousand country elevators already co-operatively owned which would figure in the unified grain marketing system.

Trade estimates of the normal business volume in cash transactions of the five grain companies during recent years place the figure well over one billion bushels annually.

SUICIDE EXPERIMENT
IS CAUSE OF MURDER

BUDAPEST. (AP)—Because the owner of Sonogy Castle was seized by a morbid desire to experience the sensations of a man being hanged, he lost his life and his aged servant became his murderer.

One day Bela Marffy, a Hungarian junker, was found dead in his study, with a rope around his neck and two heavy weights tied to the end of the rope. The coroner's verdict was suicide, but the family, which knew Marffy to be intensely fond of life, declined to accept it. Their suspicions rested upon the servant, who finally confessed that he was in fact the murderer, though no thought had been further removed from his mind a few minutes before the act was committed.

Marffy, it developed, had read an account the day before of a boy who hanged himself. Curious to know how a man feels just before he is about to expire, he arranged that his servant was to stand near him while he tied a noose, at the end of which were two weights, about his neck. The servant was to lift up the weights, thereby relieving the pressure, at the moment it seemed to him that his master was about to expire unless relieved.

The servant declared that while he was awaiting this moment, his eyes fell upon his master's purse on the table, filled with bills of high denomination. Instead of relieving Marffy the servant allowed him to die and then possessed himself of the money.

BELGIAN WINNER OF

NOW READY FOR VOYAGE

NORFOLK, Va., June 20.—The crippled battleship West Virginia, held up at Lynnhaven Roads for three days with a broken condenser head and the ship, which bears the naval Olympic games teams and is on her shakedown France.

Damage to the West Virginia's machinery was caused by mud fouling the condenser when the vessel was proceeding down the humble Shoals channel toward sea early Monday morning.

"MARCELLUS" NOT BOBBED
Belgrade. (AP). Not bobbed but carefully marched. Jugoslavians girl bandit has been captured near Brhovo village together with a half dozen of her band of brigands.

Young and prepossessing, she is known as the "Silken woman" because of her extravagance in dress. When captured she was clothed completely in silk and wore neat little patent leather pumps. Soft spoken and of quick demeanor, she is described as enterprising and as clever as any man in her exploits.

The police are trying to discover her real name. Her fellow prisoners absolutely decline to divulge it.

TURKISH SWORD IS
PRESENTED TO QUEEN

London. (AP)—There was an interesting little incident at the Rumanian Legation recently, when Queen Marie, on her visit here, was presented by Captain Locker Lampson with a sword captured in Turkey by the unit of British naval armored cars which served in Russia and subsequently fought in the Dobruja retreat.

The sword was to have been presented to the queen when peace was declared, but the ceremony was postponed until she could visit England officially as queen of a restored Rumania.

Sweetbread and Cucumber Salad (Individual)
One-half cup diced sweetbreads, one-half cup diced cucumbers, lemon juice, salt and pepper.

As soon as sweetbreads come from market put into cold water and let stand an hour or until clear. Drain and put into boiling water, salted, and acidulated. Simmer, just at the bubbling point for 30 minutes. Drain and put into cold water. This process keeps the breads white and firm and is always followed no matter how the breads are finally cooked.

When the sweetbreads are cold cut them into neat dice. Add cucumber and combine with lemon juice, salt and pepper. If you rub the knife you use for slicing across a cut onion and rub the bowl in which the salad is mixed with the onion you will like the flavor.

WOODSON JUVENILE BAND GIVEN HELP

Ice Cream Supper Given For Benefit of New Musical Group—Girls Entertain Friends on Birthdays.

Woodson, June 20 — The ice cream supper given Thursday evening for the benefit of the juvenile band was a decided success, and those in charge of the affair have on hand a neat sum to turn into the band treasury. Music for the occasion was furnished by the members of the juvenile band. This is a new musical organization, led by Fred Quimby. Owing to the fact that Mr. Quimby has been ill for some time this past winter, the band has not practiced regularly. Yet despite this handicap the boys did well in the concert Thursday night.

Mr. and Mrs. George Morrow recently attended the funeral of a relative at Ashland.

Mr. and Mrs. Ira Barrow and son, George, of Ashland, were recent guests of T. B. Irlam and family.

Miss Lulu Adams recently entertained a number of friends at her home on the occasion of her 18th birthday. A substantial lunch was served, and the afternoon from two to five o'clock was spent in games and conversation. Those present included: Elizabeth Owings, Lavita Heiser, Margaret Kitter, Doris Steinmetz, Irene Smith, James McCurdy, Marion Smith, and Miss Phyllis Cooper of East St. Louis.

Funeral services for James Bourn were held yesterday afternoon at the Gilham Funeral Home at 3 o'clock in charge of Rev. G. W. Randle. Interment was in Ebenezer cemetery.

Music was furnished by T. H. Rapp and A. C. Metcalf who rendered two duets accompanied at the piano by Miss Myrtle Laramore.

The floral offerings were in the care of Mrs. Alexander Platt, Mrs. Louis Kelly, Mrs. T. H. Rapp and Miss Mae Lambert.

The hearse was W. A. Bridgeport, P. A. Masters, C. S. Black, C. W. Boston, T. B. Reeve and Charles Cobb.

**HOWITZER OFFICERS
RECEIVE INSTRUCTION**

Capt. Wesley James and Lieutenants C. W. Hoagland and Herbert Dodsworth and Corporal W. E. Christensen of the local howitzer company have been in Chicago this week receiving instruction in the use of various types of weapons included in the equipment of the local unit.

Among the weapons with which the Jacksonville officers familiarized themselves were the one pounder and trench mortar and the pistol. These guns are to be used by the company in practice on an outdoor range.

The members of the local company are planning to leave August 9 for a month's stay at Camp Grant, all of the fifty men in the company planning to make the trip.

Capt. James remained in Chicago for a meeting of National Guard officers yesterday, the other officers returning last night.

Mr. and Mrs. E. C. Roach drove over to Mercedosa yesterday for a visit at the Boy Scouts' camp.

Patrick Crotty of Woodson was among the visitors in the city yesterday.

NUMBERS AT CLOSING CONFERENCE SESSION

The Presbyterian conference closed its sessions here yesterday noon. An unusually large number of delegates remained in the city for the final meetings. The class work in all departments came to a close.

At 11 o'clock the crowd gathered in the big tent for the closing service. It was in the form of a consecration meeting and was led by Dr. Silas Evans, who preached an evangelistic sermon, urging his hearers to devote their lives to the service of Christ.

A number of Chicago visitors were conveyed from the city by special busses to Springfield, following the close of the conference.

SUFFERED TWO YEARS
SAYS MRS. F. J. QUINN

Stomach Trouble Affected Heart Says Topeka Lady.

"When I got rid of indigestion I got rid of what some thought was heart trouble, too," recently stated Mrs. Frank J. Quinn, 408 Line St., Topeka, Kansas.

"For two or three years before I took Tanlac gas would form on my stomach and often cause such a painful pressure against my heart that I would almost smother. These spells would attack me unawares and I was afraid to ride the street cars. At a show, go out alone. They would attack me in the night and nearly cut off my breath. My nerves were all upset, too, and I was so worried and miserable I could hardly stand it."

"A few bottles of Tanlac stopped my indigestion and set my stomach in order and I have had no more of those awful feelings about my heart since, although that was seven years ago. Since that time I have always been a friend of Tanlac. I take it in the spring time and my health has remained good. Tanlac did what nothing else would and I will always praise it."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

Open Golf Grind Hard On Champion

Walker, a Midget to Begin With, Weighed 116 Pounds When Title Fight Ended.

BY JOE WILLIAMS

Cyril Walker is the smallest player to win the open golf championship since 1908 when half-pint Freddie McLeod strode on to victory at the Myopia Hunt club. Walker is even smaller than McLeod.

The New Jersey professional weighed 122 pounds at the start of the championship. After he had run down the winning putt on the 72nd green at Oakland Hills he weighed 116 pounds. In two days, then, he dropped six pounds. That gives you an idea of the terrific strain the golfer faces in the "\$50,000 championship."

A bigger man—a man of the Ted Ray type—would have dropped about 20 pounds. Walker came thru mainly because he was hitting his shots well and did not have to "fight" for his scores. He was not often in trouble, and the blustery weather gave him only a modicum of trouble. Walker's game is built essentially on wrist action and the secret of playing in such a manner as to have the Michigan course, is all wrist control.

This is one reason why a midget golfer was able to survive in a battle where stamina and endurance are all-important factors. Walker didn't cave in at the knees, as most of the little fellows do. The course had something to do with this. While Oakland Hills is not that, neither is it mountainous. One doesn't need to be a human fly in order to negotiate it. On a course more billowy Walker might not have been so successful.

Another thing that helped him was the sectional qualifying innovation, which separated the qualifying test and the championship proper into two different events. The several days' rest he got in between the two events certainly wasn't hurtful.

Heretofore the field qualified on opening day and plunged immediately into the championship play the next, continuing thru three days in all. Obviously a two-day test is less exacting in physical demands than a three-day test.

DAWSON OF ILLINOIS PLAYS CHAMP GAME TODAY

Chicago, June 20.—George Dawson of the University of Illinois and Moe Holdworth of the University of Michigan will meet in the finals tomorrow for the Western Intercollegiate golf championship. They will be at 36 holes.

Billy Evans Says

If Lee Fohl continues the Boston Red Sox in the first division for a month or so longer, critics will be referring to him as the "Houdini of baseball."

Bequeathed a tall end ball club, badly lacking in reserve strength, Fohl has created much excitement after the first two months of play, by having his despised Red Sox out in front.

But why the "Houdini" title? It is impossible to make a major league ball club over in a year, although Quinn and Fohl, the directing heads at Boston, have made a pretty good job of it.

Three years is considered the average time to rebuild a major league club. Connie Mack has been at the trick since 1914 and hasn't yet accomplished his goal. With limited strength in various departments of play, a manager is called upon to make the best possible use of available material.

That is just what Fohl is doing. Hence the title the "Houdini" of baseball.

The major league manager lays himself open to criticism every time he makes a strategic move. The second guess invariably proves that he "booted" one. So far Fohl is batting high in the league of strategy.

When his sensational rookie shortstop, Dudley Lee, was injured, Fohl had no understudy. That was problem number one.

In Shanks, Ezzell and Clarke he had three third basemen, all of whom had played second, but none of the trio were familiar with the intricacies of shortstop.

Ezzell, a fine fielding third sacker, was tried at short. In his first game he had four errors.

Then Fohl experimented with Shanks, who filled in very well. At third base he has been using his trio of aspirants for the job, with Lee having recovered from his injuries.

Clarke, a left handed hitter, plays third with a right handed pitching for the opposition. Either Shanks or Ezzell, right handers, draw the job against a southpaw. Fohl seeks to get the very best offense possible, rather than worrying about defense.

Relative to his outfield and pitching, Fohl is constantly called upon to juggle his lineup to meet situations.

Often Fohl takes Ike Boone, great hitter, out of the lineup in the ninth inning and send in John Collins.

Boone is fast learning the fielding tricks. John Collins is a master, particularly of a sun field. When enjoying a slight lead late in the game, Fohl seeks to hold it by strengthening his defense.

Unquestionably much of the success of the Red Sox must be credited to Fohl's skillful handling of his pitchers. He seems to scent the proper time to make a change.

DUNDEE OUTPOINTED BY KID SULLIVAN

BROOKLYN, N. Y., June 20.—Kid Sullivan of Brooklyn won the world's junior lightweight championship tonight by outpointing Johnny Dundee in a ten round battle at the Nostrand A. C.

Sullivan outpunched Dundee with hard rights and lefts to the body, and piled up a lead which a fast finish by Dundee in the last two rounds could not match. The decision was close but popular.

NEW YORK COMMISSION FIXES FIGHT CARD

New York, June 19.—Mickey Walker will defend his world's welterweight title against Benny Leonard, lightweight champion and Dave Shade will meet the winner, the New York state athletic commission announced today. Details have not been set, but Chairman Broer of the Commission said the three principals had agreed to place arrangements for the two bouts in the hands of the commission. At least one of the bouts will be fought in New York state, Mr. Broer said.

TAYLOR MEETS BURMAN AT EAST CHICAGO

Chicago, June 20.—Bud Taylor, Terre Haute, Ind., bantamweight and Joe Burman of Chicago tonight were matched to meet in a ten round contest at East Chicago, July 3. Morrie Schindler, Omaha, welterweight also will be on the card.

PLAYERS SUSPENDED AND GIVEN FINES

As Result of Yankee-Tiger Riot Ruth, Bob Muesel, and Cole Receive Sentences—Game Forfeited to New York.

CHICAGO, June 20.—With the announcement that the players involved in the riotous New York-Tiger game at Detroit last Friday had been fined as well as suspended, President Ban Johnson of the American League tonight declared that fighting and boisterous conduct could have no part in the playing of an American League game and that if "there are to be any battles they must be staged in a vacant, far removed from the ball park."

"Babe Ruth, world's champion home run hitter, while escaping suspension, was fined \$50, for which President Johnson characterized as his "frenzied effort to participate in the trouble."

Bob Muesel, Yankee outfielder was fined \$100 in addition to a ten day suspension. Bert Cole, \$50 and suspended for ten days. The game, breaking up in a free-for-all fight in which players police and spectators participated was forfeited 9 to 0 to the Yankees when the police were unable to clear the field.

"The forfeiture was a regrettable occurrence and wholly at variance to a standard the American League is pledged to maintain," President Johnson said. "There was not a blow struck by the players in the riotous scene at Detroit, but their belligerent attitude and frenzied conduct plainly excited the multitude to a point where all measures for its control were speedily wiped away. The forfeiture of the game resulted."

SENATORS TAKE GAME IN TWELFTH INNING

PHILADELPHIA, June 19.—Washington won a 12-inning game from Philadelphia today when Peckinpaugh crashed a double to center field with Blazek on base winning the game 3 to 2. The contest was hard fought at all times with Matthews, Washington center-fielder starring thru-out the battle.

NEW TRIAL DENIED KENNETH PENNELL

Judge Stuttle Denies New Trial Following Arguments on Motion Yesterday Morning—Other Court Orders

A new trial has been denied Kenneth Pennell, who was recently convicted on a charge of criminal assault. Arguments in the case were conducted yesterday morning in circuit court before Judge Stuttle. The defendant was sentenced to imprisonment in the Southern Illinois penitentiary at Chester for a term of one year. The defendant excepted to this and a writ of habeas corpus was granted for a period of 50 days from the date pending application for writ of supersedeas by the supreme court on a writ of error. The application for the writ is to be made within said time or the judgment will be executed. The bail of the defendant was fixed at \$2,000, pending application for supersedeas.

M. W. A. AND R. N. A. ATTENTION

Memorial Services Woodman Hall, Sunday afternoon 2:30 sharp. Sermon by Dr. M. L. Pontius. Every member urged to be present, and cordial invitation extended to friends and visiting neighbors.

SITE CHOSEN FOR NEW JACKSONVILLE HOTEL

Building Will Be Erected on Ground Adjacent to Dunlap House—New Street to Run Along East Side of Five Story Structure.

Jacksonville's new hotel will be erected on the site immediately east of the present Dunlap hotel building. The Fisher building, occupied by the Reynolds undertaking establishment, and by other tenants, the Dr. King building and residence on Morkan street will be removed. M. F. Dunlap on behalf of the Jacksonville Hotel Co., has taken the title to these properties and on his own account has purchased the Dunlap hotel and Dr. Rule's residence property.

It is understood that Dr. Rule has bought back or is to retain the residence and will remove it to a West State street lot recently purchased from Mr. and Mrs. Miller Weir.

As indicated previously, the new hotel for which plans are being drawn by Jarvis Hunt of Chicago will be 88x180 feet in general dimensions and 5 stories high. It will contain from 120 to 130 rooms and the structure will be modern in every way.

The contract has already been made whereby the hotel will when completed be leased to E. O. and E. S. Perry of Springfield. On the east side of the hotel a wide street will run thru from State to Morgan and will be paved with asphalt. This will mean that the hotel property will have a frontage on three streets and that the open spaces will mean satisfactory light and ventilation.

There have been many details to work out in acquiring title to the several properties and now that the final decision has been reached and the site secured, it is the hope of the hotel committee to push along the work as rapidly as possible.

It will be remembered that several weeks since when the decision was made for the West State street site that the opportunity was given stockholders who were dissatisfied with the site to withdraw. This action resulted in withdrawal of about \$75,000.

M. F. Dunlap immediately took \$25,000 of this amount and since that time a number of those who withdrew have re-instated their subscriptions. There nevertheless remains a gap between the total of subscriptions and the \$200,000 cash actually necessary, but the directors believe that the amount necessary will be secured in the course of a short time, so that the hotel can be completed as a community enterprise in accordance with the general plan with which it was started.

The directors know that a modern hotel is needed, but they also know that the maintenance of a fine spirit of co-operation in Jacksonville is an even more essential thing.

MANY CHILDREN IN ATTENDANCE AT D. V. B. S.

The enrollment at the Daily Vacation Bible school now is 216, the children being distributed among the various churches of the city as follows:

First Baptist	37
Brooklyn Methodist	12
Centenary Methodist	10
Central Christian	68
Grace Methodist	6
Northminster Presbyterian	36
State Street Presbyterian	23
Trinity Episcopal	5
Westminster Presbyterian	15
Total	216

The committee in charge of the arrangements for the school includes Rev. M. L. Pontius, chairman; Rev. G. E. Stickney, and Rev. W. H. Marbach. The average cost per pupil is \$2.15, and this amount is to be apportioned among the various churches participating on the basis of representation. The necessary amount will then be raised by popular subscription. The school is to be in session until July 2.

MRS. H. W. ENGLISH ON DEMOCRATIC COMMITTEE

At the meeting of the state Democratic Women's committee, which was recently in session at Chicago, in connection with other political organizations, Mrs. Henry W. English of this city, was elected one of the four state vice-presidents of the committee. Other officers elected were Mrs. R. E. Berglund, of Galva, who was re-elected state chairman; vice-presidents, Mrs. Milton Backus, Freeport; Mrs. Henry W. English, Jacksonville; Mrs. J. T. Muselman, Paris; Mrs. Mary Hart, Benton; Mrs. Helen McLaughlin, was elected recording secretary and Mrs. Kellogg Fairbanks was appointed corresponding secretary.

Prominent speakers at the committee meeting included Judge Norman L. Jones, of Carrollton, Democratic nominee for governor, and John L. Devine, former secretary of the state committee. Mr. Devine has been named as manager of the downstate campaign for his party. Hon. Thomas F. Donovan of Joliet was also enthusiastically received at the meeting.

IMPROVE ROODHOUSE MAIL SERVICE SOON

Post Office in Greene County Town to be Advanced to Second Class—New Employees to be Added July 1

Roodhouse, June 20.—It is learned from Postmaster W. C. Roodhouse that on July 1st this postoffice will be advanced from the third to second class, and all employees will then be in the classified service.

In addition to the present office force, consisting of John Roodhouse and Miss Ruby Michel will be added Harry Anthony as clerk.

The change also brings about an enlargement in the city delivery service. To the present force of carriers consisting of Louis W. Craig and Willard E. Reynolds, will be added Hal Anthony as auxiliary carrier, and William T. Kidd as substitute.

Under the Department regulations governing second class offices, there will be no Sunday window delivery service. This regulation is arbitrary with the P. O. department. All employees are given Sunday as a holiday with no duties to perform, and this ruling must be observed by the postmaster, under civil service rules.

The lobby of the office will be open from 7:00 a. m. to 12:30 p. m. on Sundays, so that all who have boxes can come in and get their mail between those hours. The morning mails on Sundays will be distributed to the boxes as usual, and the ruling permits those having boxes to get their mail if they do so desire, through box delivery only.

DR. SHRIVER TALKED OF COMMUNITY IDEALS

Made Address to Rotarians Discussing Some Fundamental Things in Life—Report Made on Rotary Club House.

Rotarians at their Friday luncheon at the Pacific hotel heard an address by Dr. William K. Shriver, secretary of the department of city immigrant and industrial work of the board of national missions in New York City. Dr. Shriver was here to attend the sessions of the Presbyterian synod and conference.

Before the address John S. Hackett, who is chairman of the committee which has charge of the rotary club house at Mercedia, gave a brief review of the building of the club house and the work done. Then he told of various betterments which are needed and gave a financial summary to indicate the status of the club house fund.

Dr. Shriver is engaged with an organization which deals with the application of influences that are beneficial in the community. He referred briefly to the study made of Williamson county and said that the troubles that have drawn attention to that county are not because of the foreign population but result from certain underlying conditions.

He said such happenings might occur in other counties if the same kind of influences were allowed to be at work.

Dr. Shriver summed up the ideal for each community as hopeful progress. Then he said such progress could not come without an economic surplus existing, and the maintenance of the channels of free speech and the right of assembly—the basic things that are really guaranteed under the constitution.

Then he spoke of the need of recreational life and attributed the troubles of some localities to the fact that not enough attention was given to parks and playgrounds and sports, and said that as a result troubles come. For any high-minded development of community spirit there must be a goal—a definite desire to accomplish a definite purpose. It is only as these underlying things have been taken into account that there can come to any community the achievement of finer things which result from educational and religious influences.

In beginning his very interesting talk Dr. Shriver spoke of the great beauty of the city of Jacksonville, and said that he had seen many of the great cities of the world which were extending to present day citizens when these trees were planted.

He took the liberty of mentioning that some of the trees now attention and said that citizens should not in any light way count the value of these trees.

The visitors of the day included: John G. Gaudier, state fire marshal of Springfield; H. C. Taylor, Chicago; A. W. Howells, Kalamazoo, Mich.; J. A. Munoz, Minneapolis, Minn.; H. G. Campbell, Chicago; James R. Sager, Hillsboro, Ill.; Dr. F. P. Norbury, and Ray Hartman, Jacksonville.

LOCAL MAN PROMOTED

A. H. Bennett, for several years employed as clerk at the city office of the American Railway Express Co., at 221 W. State St., has been promoted and after June 20th will have charge of the Havana, Ill. office of the same company.

Mr. Bennett started with the Express Company at Havana in 1914, under A. R. Eyre, then agent at Havana now in charge of Jacksonville office and soon after Mr. Eyre was returned to Jacksonville he brought Mr. Bennett down in 1916.

This is a very gratifying promotion and his many friends here will be glad to hear of his success.

M. F. DUNLAP LEAVES FOR DEMOCRATIC MEET

Mr. Dunlap Left Last Night for New York City as Delegate to National Democratic Convention.

M. F. Dunlap left the city last night for New York City, where he will attend the National Democratic Convention as a delegate from the Twentieth Congressional District with Congressman Henry T. Rainey the other delegate from this district.

When questioned yesterday concerning his choice for the presidential nominee, Mr. Dunlap stated that he was against either McAdoo or Smith, both of whom are prominently spoken for the position for the nomination. Giving his reasons for his stand against them he stated that McAdoo would probably throw the railroads back into government ownership if elected and owe too great an obligation to the railroad men, because of the enthusiasm with which they would likely support him for president. Mr. Dunlap does not favor Governor Smith because of the stand he takes on the liquor proposition.

The Jacksonville delegate said that before his departure for the east, that he expects to cast his first ballot for Mr. Rainey. He believes that Mr. Rainey's chances for nomination for the presidency are very good and expects to use his ballot and influence in carrying out his purpose.

In speaking of Congressman Rainey, Mr. Dunlap said: Mr. Rainey is nationally known, having been a member of Congress for twenty years. He has shown his ability as a leader in Congress, and his integrity is unquestioned. He fits in the convention very admirably as a dark horse. That other Illinois delegates will probably line up strong for Rainey from the start is Mr. Dunlap's belief.

ROCK ISLAND SCOUTS CAMP IN CITY

Two truck loads of Boy Scouts from the Y. M. C. A. at Rock Island, Ill., camped last night on the Illinois College campus. The boys were in the city yesterday en route to Peoria where they will spend several days.

Forty-two scouts were in the party and they will go from here to Springfield, Bloomington, Decatur and Peoria, returning to Rock Island next week. They have been to Keokuk, Iowa and made a trip thru the famous Mark Twain cave south of Hannibal, Mo.

This is the annual trip of the Scouts and before they are eligible for the trip, it is necessary for them to have an average of 75 per cent and over in their school work, and must have a regular attendance at Sunday school and church. They must also have a regular gymnasium attendance at the Y. M. C. A. and pass a Bible test given by their Scout master.
